The Church That Suffers for Their Savior

INTERNATIONAL

DAY OF PRAYER

FOR THE PERSECUTED CHURCH

NOVEMBER 5th

74% of the world's 7.5 billion people live in regions of the world that are hostile to the name of Jesus. With that sort of persecution, you would think Christianity would be almost extinct in those countries that are predominately Islam and Hindu. But conservative estimates indicate that over 200 million Christians live in these difficult places. Why doesn't God do something about their suffering?

A Little Background on Persecution
